

## LA SCATOLA DEI GIOCHI (MEMORIA ASSOCIATIVA VISIVA/VERBALE)

### “Forme e colori”

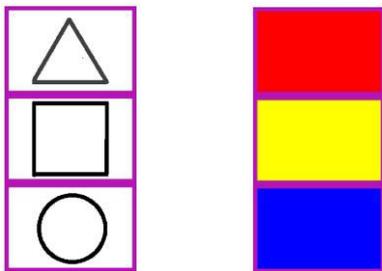

**Materiale occorrente:** Due serie con lo stesso numero di Carte:

- una serie di carte con colori (cominciare coi colori principali: rosso, giallo e blu)
- una serie di carte con le forme vuote non colorate (es: (cominciare con triangolo, quadrato e cerchio.....)

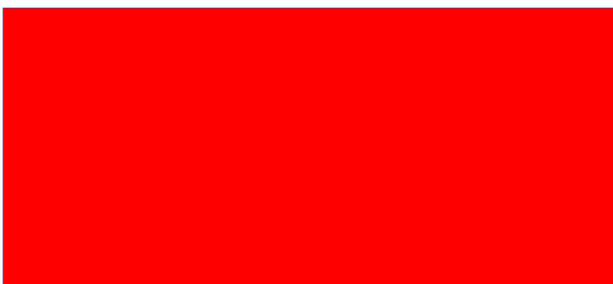

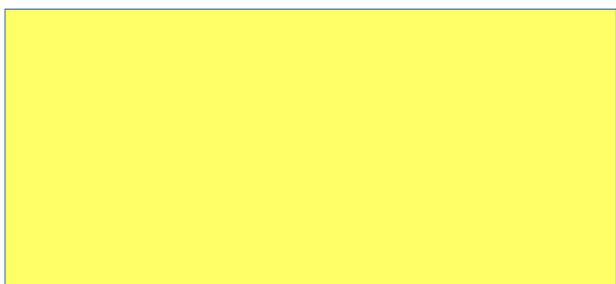

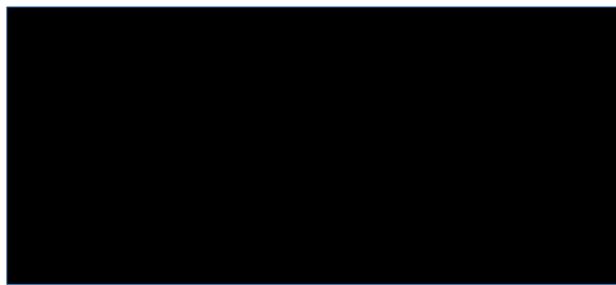

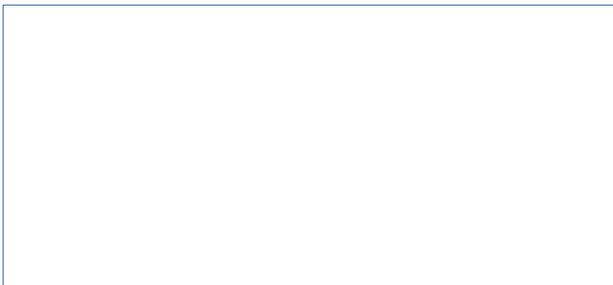

Posizionare le carte con le forme nella prima colonna della tabella (cominciare con triangolo, quadrato e cerchio) e in corrispondenza nella seconda le tessere colorate (cominciare coi colori principali (rosso, giallo e blu), in modo tale che ad ogni forma corrisponda un colore.

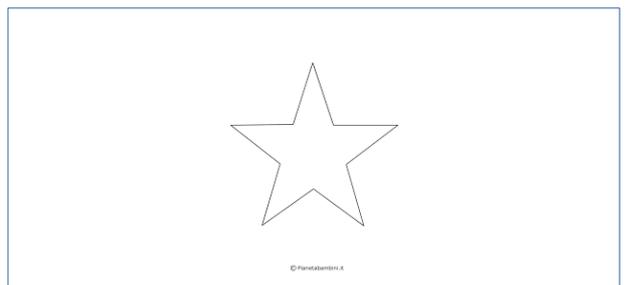

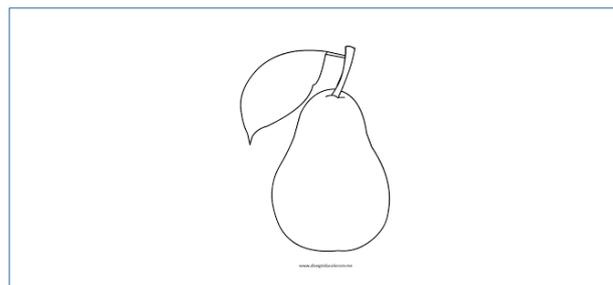

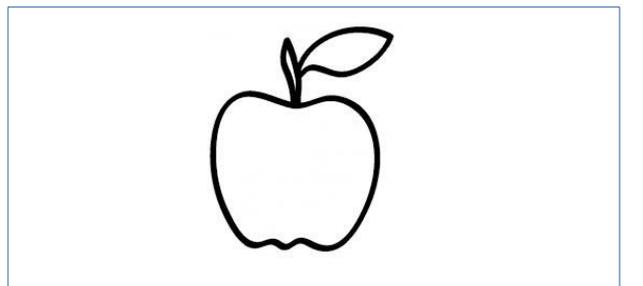

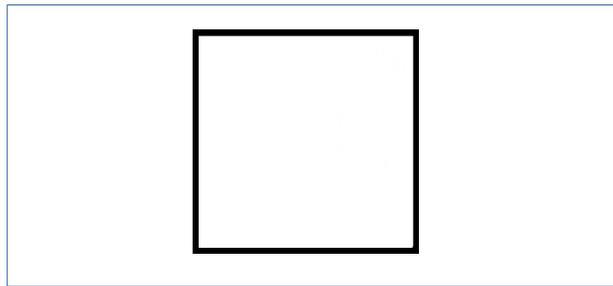

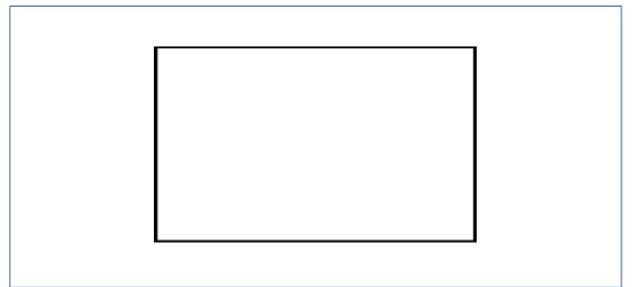

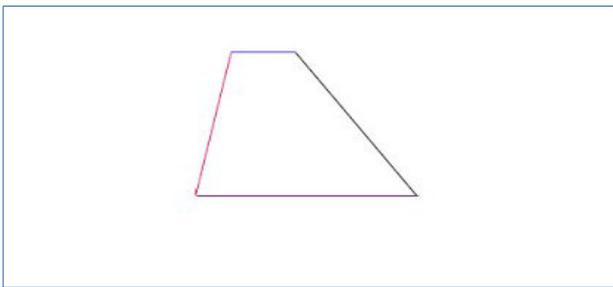

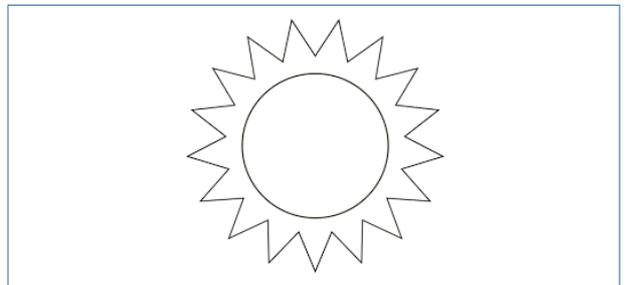

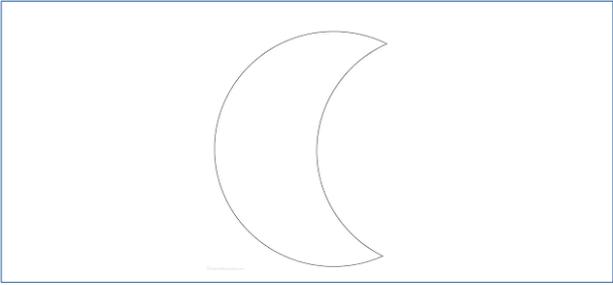

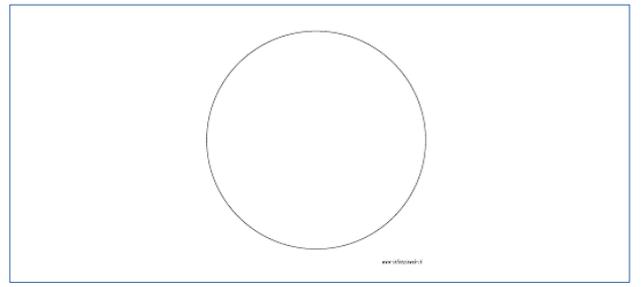

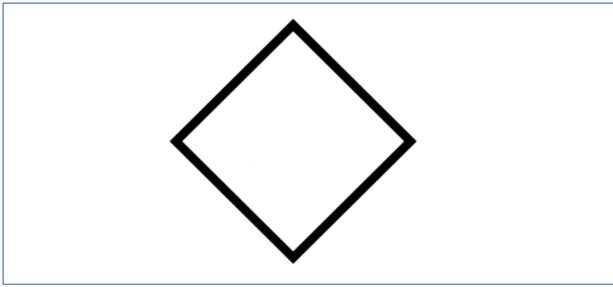

Un bambino a turno dovrà guardare per alcuni secondi le figure ed i relativi colori poi queste prime due colonne verranno coperte con un foglio e il bambino dovrà ricordare come erano associate e ricomporre nelle due colonne a fianco la stessa situazione.

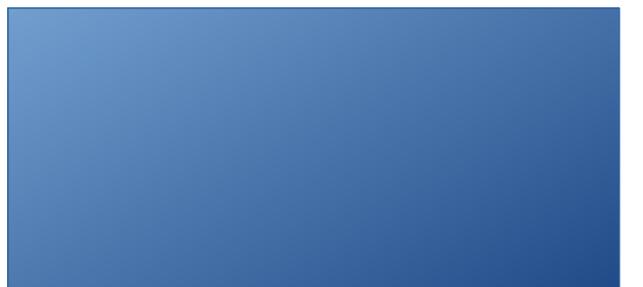

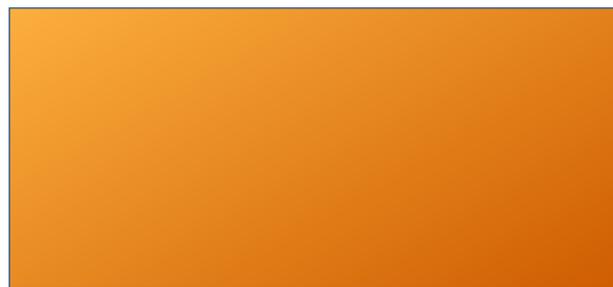

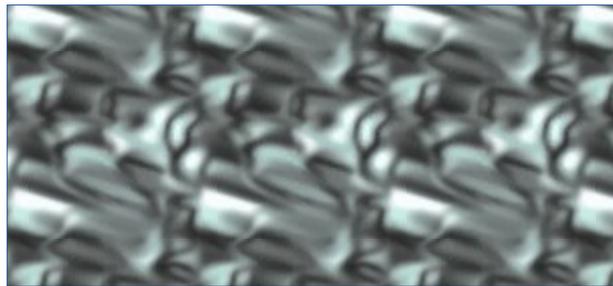

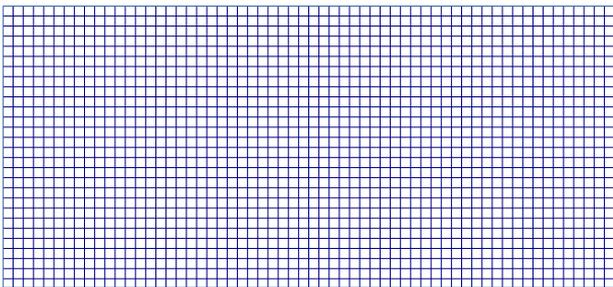

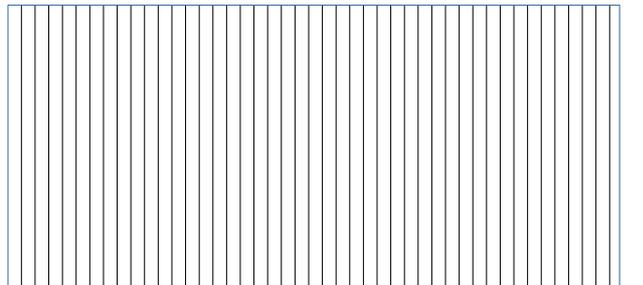

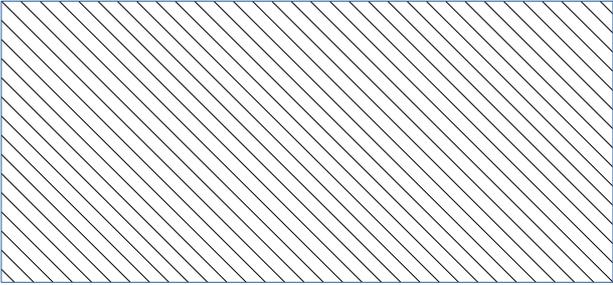

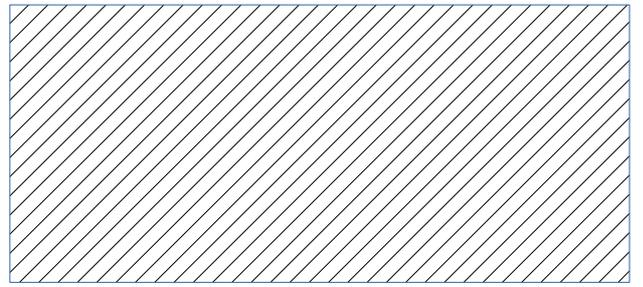

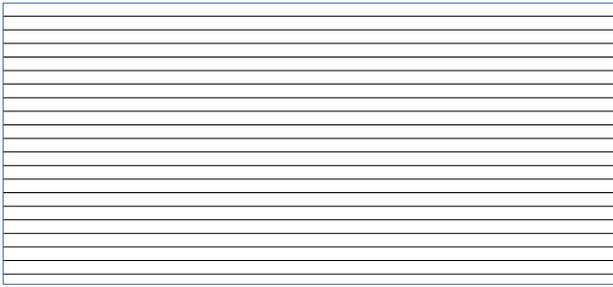

Si consiglia di partire da 2 associazioni, poi 3, poi 4 ecc.

**Variante:** e' possibile inserire forme e colori meno frequenti oppure sostituire i colori col manto di alcuni animali o sfondi particolari (ad esempio maculato, tigrato ,zebrato, ecc.) in questo caso, però, si nasconderanno solo i cartoncini relativi alle forme mentre resteranno visibili i riempimenti.
